INTENDED ITINERARY

Whilst it is our intention to adhere to the route described below, there is a certain amount of flexibility built into the tour and on occasion it may be necessary or desirable to make alterations to the published itinerary. Please therefore treat the following as a guide only.

The vehicle used for this tour is a fully-equipped safari truck. An additional transfer vehicle may be used for transfers to the start of the trek if we trek from Buhoma.

Duration: 18 Days
Countries visited: Kenya, Uganda

DAY 1 - 2

Nairobi – Nakuru – Eldoret

Kenya is East Africa's most popular destination and has a long tradition of tourism and of welcoming visitors. Very often the first word you hear is the Swahili greeting 'Jambo' (hello), often followed by 'Hakuna matata' (no problem!). We recommend you arrive the day before the tour departure in order to relax and overcome any jetlag before your trip. Nairobi has seen rapid growth in recent years but has a comparatively small city centre, a highly interesting city market (great for sharpening your bargaining skills!), as well as craft shops, book shops and plenty of cafes and restaurants to sit and relax in. We depart Nairobi and descend into the 'Great Rift Valley', an enormous cleft in the Earth's surface stretching from the Red Sea to Madagascar but with particularly marked escarpments here in Kenya. Our first stop is Lake Nakuru National Park, a relatively small park (by African standards) located on the Rift Valley floor. Nakuru's shallow soda lake attracts a huge variety of birdlife – especially flamingos, which may gather in such numbers that from the nearby viewing point they form a strikingly pink 'fringe' around the lake-shore. But Lake Nakuru is not simply a bird sanctuary, it is also home to lion, rhino, leopard, warthog, baboon, antelope, and a variety of smaller animals. A delightful introduction to East Africa's wildlife diversity. From Nakuru we continue northwest to Eldoret, and the Uganda frontier.

DAY 3 - 6
Jinja - Kampala

We cross into Uganda, Winston Churchill's 'Pearl of Africa'. This is a wonderfully fertile country of green terraced hillsides, lush banana plantations, steep mountains and tangled forests. But we spend our first couple of nights on the grassy banks of the River Nile, near the town of Jinja. It was the 19th century British explorer John Hanning Speke who recognised Lake Victoria as the 'source of the Nile' settling a long running dispute about Africa's (and the world's) longest river. From this modest monument, marking the historic spot, the Nile begins its 4132 mile course through Uganda, Sudan and eventually Egypt to the Mediterranean Sea.

Our camp overlooks a dramatic set of rapids known as Bujagali Falls. It is here that we usually have the option to try rafting - an exciting day out for those enjoying the thrill of 'white water'. There is also the opportunity to make some difference to local children at a local school project: 'Softpower' is a locally run voluntary programme aimed at building and improving schools in the Jinja area to which your contribution of a few hours of painting or plastering is always most welcome. Other activities at Jinja include quad biking, village walks and even bungy jumping! From Jinja, we move on to Uganda's capital Kampala, an attractive hilly city bustling with African street life - roadside traders, markets and busy matatu (mini-bus taxi) stands.

DAY 7 - 13
Gorilla Trek - Nairobi

From Kampala, we travel south and west, skirting Lake Victoria and heading into the mountainous region of southwest Uganda. Although a long drive, the scenery is very rewarding as we cross the equator and pass through areas of thick papyrus which give way to mountain valleys and ancient forests. Heading deep into the Kigezi Highlands we stop at picturesque Lake Bunyoni, an ancient flooded valley, before arriving at Bwindi National Park. This region of Africa is home to the world's remaining 700 mountain gorillas, half of which inhabit Bwindi. [Occasionally we may travel into neighbouring Rwanda to trek for the gorillas.] On the day of our trek we gather in the early morning to meet our local guide and tracker. Walking in small groups we trek into the thick rainforest. The trekking can be demanding at times with uneven terrain and hilly rainforest but the privilege of spending time with a family of these gentle apes makes the effort well worthwhile. To many people, even those who stay in Africa longer than this two week tour, the day's trek and time with the gorillas remains their most exciting wildlife encounter in Africa.

The usual procedure, once we have located the gorilla 'family', is to squat or sit down and simply observe them for around an hour – the time set by the Uganda Wildlife Authority (the national body charged with controlling and maintaining the gorillas in Uganda). Gorillas are sociable creatures, living in groups between 12 and 20 individuals, usually led by an 'alpha male' (the 'silverback' - so called because of the silver hair on his back which grows once the male gorilla attains maturity). Most people find that the gorillas are remarkably human-like at close quarters – particularly in the social interaction between family members and in 'play' activity in which the young engage. Photography is permitted (although not with a flash and there are restrictions for those who wish to use a video camera.)

Your permit allows you one trek and gorilla viewing (time limited to one hour). However because the authorities maintain strict limits on the number of visitors allowed to view the gorillas each day we may spend several days in the area while all passengers in our group complete the trek and viewing.

We return to Kenya via Kampala and Eldoret and cross the Rift Valley once again to the lights and bustle of Nairobi, where we pause briefly before continuing on the final leg of our tour.

DAY 14-18
Nairobi – Masai Mara National Reserve

We have the day in Nairobi to relax and replenish supplies. We switch to smaller and more suitable safari vehicles and depart the Kenyan capital and cross the Rift Valley once again to the Masai Mara National Reserve. We spend two nights camping on the edge of this world renowned wildlife reserve and spend our days exploring on game drives. The 'Mara' is the Africa of Hollywood films; sweeping grassy plains, open horizons, low slung Acacia trees and small coppices of vegetation, where perhaps leopard or lion sit. The Mara's plains are crossed every year from July to October by large herds of wildebeest, zebra and other hoofed animals that migrate from the adjoining Serengeti National Park in Tanzania, on a continuous circular migration. Predators (lion, cheetah) and scavengers (hyena, vultures) follow the huge herds and together form a spectacular sight. But the Mara is excellent for game viewing at any time of year and with luck we hope to spot some, if not all, of Africa's 'Big Five' (elephant, lion, rhino, buffalo and leopard) as well as an inspiring array of other African animals and birdlife.

DAY 18

Nairobi

On our final day we leave the Mara and journey back across the Rift Valley to Nairobi, where our tour ends.

NB Depending on the availability of gorilla permits the tour itinerary may vary in day to day running order from the above running order which is based on the brochure itinerary. From time to time we may visit neighbouring countries, eg Rwanda, for the gorilla trek (instead of Uganda) and this may entail extra visa fees although we shall endeavour to advise you before departure of any significant change to the tour itinerary.

NB² Accommodation in Nairobi on nights 14 & 15 is not included in the tour price or your Local Payment. Please put aside between US\$20-30 per night for meals and accommodation here.

TOUR INFORMATION

Travelling overland is great fun, but it can also be challenging! This is a *participation* tour and your help will be needed in setting up the camp each night and assisting (usually on a rota basis) with the various day to day campsite duties, such as shopping, cooking and keeping the truck and camp tidy. But don't worry it's not all hard work and it's a great way to meet the local people and get to know your fellow travellers. Your contribution benefits the success of the tour - most people find the greater their involvement, the greater their enjoyment of the whole trip.

Africa is an adventure destination and travelling here is not always predictable so be prepared to "expect the unexpected" in difficulties or delays which might come our way! However, you'll soon find that the diversity of the African landscape, the wildlife and the communities we pass on our way, make the sometimes rough travel and long driving days worthwhile.

Come with a sense of adventure and a flexible attitude and you will be sure to enjoy your Acacia overland tour across this amazing continent.

GAME PARK VISITS

In order to maximise the quality of game driving and to comply with local authority rulings, some of our National Park visits and game viewing may be carried out using services provided by local African ground handlers. This is particularly so in the Masai Mara, where a smaller lighter vehicle is better suited to the narrow tracks and routes within the park. As well as enhancing our experience it also allows us to contribute at a 'grassroots' level to local economies from which local people benefit. These local services are included in the Local Payment.

GORILLA PERMITS

The Uganda Wildlife Authority imposes strict regulations regarding the gorilla trekking permits. One of these is that permits must be booked and paid in advance. In order for us to do this we must collect your permit money, in addition to your normal deposit, at the time of booking. Like your deposit, the permit money is not refundable if you cancel your tour. The permits currently (Nov 2009) cost US\$510 per person. Please ask your agent or Acacia for the equivalent amount in your own currency.

On rare occasions, subject to permit availability, we may purchase trekking permits to view the gorillas in neighbouring Rwanda.

Kenya straddles the equator and covers an area of 582,646 sq kilometres, which includes around 13,600 sq kilometres of inland lakes. It is one of Africa's most diverse communities, having been a major migratory pathway for millennia. More than 70 tribal groups occupy the land and whilst distinctions between them have become blurred and western cultural values being adopted, the individual cultures and traditions can still be detected, especially in rural areas. Most of the African population is Christian whereas the Asian population is a mix of Muslim, Hindu and Sikh. English and Swahili are the official languages, however there are many other major tribal languages spoken.

Points of Interest

Masai Mara National Reserve

The Masai Mara National Reserve (sometimes abbreviated to 'the Mara' meaning 'mottled' – due to its patchy landscape) is Kenya's best known game reserve. It is coined by gently rolling hills, woodland and acacia trees and watered by two rivers, the Mara and Talek. There are no fences between the Masai Mara and the bordering Serengeti National Park in Tanzania, and large numbers of animals roam freely between the two parks. The most dramatic spectacle of the area is the migration of zebra and wildebeest. Every year in May, they leave the dry south in herds of thousands and head first west and then north to the greener grasses. Lion, cheetah, hyena and wild dog follow the wildebeest and zebra, making sure that only the fittest survive. In November, when the grazing is finished in the north, this army of animals surges back to the now green pastures of the south where they calve and mate before starting the entire cycle again.

You will also be likely to spot the 'Big 5' here - buffalo, elephant, rhino, lion and leopard. It's little known but the term originally referred to the 5 large animals that proved the most challenging to early colonial hunters – and therefore became a much sort after prize. Nowadays visitors prefer to 'shoot' the animals with cameras rather than guns and the park also has very healthy populations of cheetah, zebra, giraffe, hippo, hyena, jackal, eland, crocodile and many different birds.

Several sub-tribes of the Maasai people live within the Mara area. These are a proud semi-nomadic, non-hunting people who live and raise their cattle in harmony with the surrounding wildlife. Despite the growth of modern civilization, the Maasai have largely managed to maintain their traditional ways.

Lake Nakuru National Park

Lake Nakuru National Park was established in 1961 with only the surroundings of Lake Nakuru, but subsequently extended to its present 200 sq kilometres. The park 'centre piece' is still Lake Nakuru, a shallow alkaline lake whose size varies from 5 to 40 sq kilometres depending on rainfall and which attracts a multitude of birds, especially flamingos. These colourful wading birds may gather in such numbers that they form a pink fringe to the lake shore. Other prominent birds are pelicans, cormorants, rollers, and almost 500 other bird species. The forests surrounding the lake are a perfect habitat for black and white rhino, leopard, buffalo, waterbuck, warthog, impala, giraffe, eland, and lion.

To many people Uganda is one of the most beautiful and friendly countries in Africa. The capital, Kampala, is built on a series of hills on the northern edge of Lake Victoria, and the neighbouring city of Jinja built over the outlet from that lake. The scenery to the west along the border of DR Congo is dominated by high ranges of mountains, the Ruwenzoris (Ptolemy's "Mountains of the Moon"), and is suitably spectacular, as are the regions to the north of Kampala, around the Murchison Falls. The 'Idi Amin' days have long disappeared. Uganda in the 1990's is a place of improvement and regeneration. Roads and buildings have been or are being rebuilt, and the economy is slowly re-asserting itself. The tourist industry is still small - but is growing; game parks are being restocked and services in Kampala and around the country being improved.

Points of Interest

Jinja

The city of Jinja is built across the River Nile, just downstream from where the river edges out of Africa's largest lake. At the point where the Nile leaves Lake Victoria there are monuments to commemorate both John Hanning Speke (who was the first European to recognise the river's source) and Mahatma Gandhi (whose ashes were sprinkled here). In recent years various activities have been developed - white water rafting (the stretch outside Jinja boasts world class rapids) or other adventure activities such as bungy jumping or quad biking.

Kampala

Kampala is capital of Uganda and previously capital of the old Kingdom of Buganda. The city is attractive, built on seven hills on the northern shore of Lake Victoria. Historically, control of Uganda has been much fought over and in the 1970s and 80s men as Obute and Idi Amin caused enormous civil strife throughout the country. However Uganda has come a long way since those days and these days Kampala welcomes the visitor. The city has a vibrant street life, many roadside traders, busy markets and noisy matatu (mini-bus taxi) stands. The city boasts a range of Hindu temples, hilltop mosques, tribal memorials and elegant colonial hotels to illustrate its diverse influences. Kampala is also home to Makerere University, Uganda's premier university.

Lake Bunyoni

Lake Bunyoni is situated in the picturesque **Kigezi Highlands**, often nicknamed the '**Switzerland of Africa**' and is accessible from the south-western town of Kabale. The lake is an ancient flooded valley and is perhaps one of the deepest lakes in Africa. Strangely, the lake is devoid of fish, although the area has magnificent birdlife and flora. A small number of the lake's islands are inhabited and one of the largest has a school. Transport on the lake is restricted to small motor boats or dug-out canoe, the local means of getting around.

Bwindi Impenetrable Forest National Park

Situated in the extreme south-west of Uganda, Bwindi is the reason many people travel to Uganda. It covers 330 square kilometres of the hillside, gorges, streams, rainforest - one of the biologically most diverse areas in Africa. Over 100 mammal species, including 11 primates, inhabit the area but the main attraction is the 300 (or so) endangered **mountain gorillas** which live here. To see these gentle giants in their natural habitat is a highly rewarding experience - they are the bulkiest, but yet most peaceful of the living primates. Besides, the park contains elephant, chimpanzee, monkey, various antelope and numerous bird species.

ACACIA ON THE ROAD – NEWS & EVENTS

FOOTBALL'S COMING TO AFRICA

In line with the 2010 Football World Cup, in Cape Town, Acacia's keeping its eye on the ball. We've got together with the charity Footballs for Fun to spread some goodwill and love for the beautiful game across the continent. In 2008 all our trucks will carry footballs which can be bought and donated to children in the local towns along our route. The footballs are a perfect ice breaker and a game with locals is a great way to make friendships despite language differences. And all the profit (at least £2 from each ball) goes straight back into Africa, helping support a selection of AIDS charities and children's homes. Make a difference, get kicking and buy a ball when you're next on one of our trucks.

RESPONSIBLE TRAVEL

We believe that you get the most out of a journey by respecting the culture and people of the places you visit. On our tours we try to travel in a way that benefits the communities we pass through and minimises negative impact on the environment. This can be from ensuring the campsites we use are clean when we leave and dressing respectfully in conservative areas to getting involved with local charity projects. We ask that you are open to this when you travel with us. Being proactive in responsible travel helps develop cross-cultural understanding and friendships with the local people, and will greatly enhance your experience in Africa.

PHOTOS & STORIES SEARCH

If you've ever thought you can take better pictures than the brochures or have a great travel story and want to see yourself in print, then we're looking for you. If you've captured a great moment on tour, whether it's of the wildlife, local people, landscape or life on the road why not enter our monthly photographic competition starting in 2009. Not only do we give away a monthly prize, you may also see your photos published in a future brochure or on our website. We are also on the lookout for stories of life on the road, the funny, exhilarating, moving or simply unforgettable things you did on tour. We publish the best stories on the Tales from the Road section of our website. Send your photos or stories to acaciaontheroad@googlemail.com

Photos should be in digital format & good resolution (max 6 pics per person) and labelled with the location of where the photos were taken. Meanwhile if you have a story or anecdote about your tour (up to 400 words) it needn't be word perfect, we'd love to hear about it. **Legalities:** You, the photographer/author, retain copyright of all images & words submitted but we reserve the right to use of them for Acacia brochures, promotions & advertising.
